

```
1 public static void main(String[] args) {  
2     System.out.println("Hallo_Welt");  
3 }
```

Das ist c++:

```
1 #include <iostream>  
2 public static int main(int argc, char** argv) {  
3     std::cout << "Hallo_Welt" << std::endl;  
4     std::cout << "Die_Antwort_ist:_ " << 21*2+14-(2*7) << std::endl;  
5 }
```
