

GUI

```
graph TD; GUI[GUI] --> Logik[Logik]; Logik --> GUI; Logik --> DB[Datenbank]; DB --> Logik;
```

The diagram illustrates a three-tier software architecture. At the top is a light green box labeled 'GUI'. Below it is a light blue box labeled 'Logik'. At the bottom is a light red box labeled 'Datenbank'. Bidirectional communication is shown between the GUI and Logik layers, and between the Logik and Datenbank layers, indicated by black arrows pointing in both directions.
